

## Preliminary Concept Plan B

Concept B addresses the preference for a somewhat natural park with some built improvements. This plan focuses on picnicking, riparian protection and open space.

- Wide, undulating native riparian protection and enhancement area
- Deschutes River Trail connection along Riverside
- Two river access points, one with an accessible dock
- Off street parking—15 spaces
- Restroom
- Picnic shelter and art plaza
- Picnic meadow with shade trees and individual picnic tables
- Looping walkways
- Standard features such as benches, garbage cans and dog waste stations
